

The security an ocean contract gives you often comes with conditions and a level of inflexibility. These are some of the areas where UCM can help free you from your carrier's limitations.

YOUR CONTRACT *doesn't have to be* YOUR HANDCUFFS

While your contract guarantees you a set number of slots, UCM can offer you an array of additional options when those slots don't align with your needs. And when your requirements extend outside of the confines of a box, we have the global network and practical know-how to create solutions that are tailor-made to your project, breakbulk, heavy lift and vessel chartering needs. Whether you're moving door-to-door, door-to-port, port-to-port or port-to-door, we've got you covered.

"UCM consistently demonstrates its value as a reliable partner, offering innovative solutions that push the boundaries of conventional thinking. When urgent delivery and customized, inventive solutions are imperative, UCM is my first call." - **Jim Rinchiuso, FedEx Logistics**
